When Colonel Henderson's mail and telegrams showed he had passed the majority with votes to spare he sent word to his colleagues of the Iowa delegation, telling them there was no need to hold the caucus in Des Moines, which had been called for to-morrow to lay out plans for a vigorous cam-paign. He was assured of his election, and was in position to take his ease and receive congratulations. These were showered upon him yesterday were accompanied by extended hands at the Union

The Henderson campaign for the Speakership of began in Atlantic City, where the House Commonetary bill met a few weeks ago. Thomas B. Reed at that time permitted some of his intimate from the House and to go into law business in the Monetary Commission, and when it was learned that a new Speaker would have to be elected it was suggested that Colonel Henderson would be the right man for the place. Colonel

would be the right man for the place. Colonel Henderson said to-day:

I am elected beyond doubt, for I have more than the required number of votes now, and I sit here in this chair with the knowledge that I have not made a single pledge, have not made a single promise of a committeeship, and, what is more, have not been asked to. I know there has been more or less said about promise to this man and that, but such talk was based upon a dense ignorance of the situation.

I do not care to talk policy or politics. If I started in on that sort of thing I might make a mistake. My policy will be to do what is right, my politics to be fair to every one. It is eminently proper to have the Speaker come from the West, and I think my Eastern friends recognized the justice of our claims. It certainly looks that way to me.

succeed the late Nelson Dingley, of Maine, has telegraphed that he will give his vote to Mr. Henderson. Congressman Boutelle, of Maine, has telegraphed similar assurances.

MR. SHERMAN STILL A CANDIDATE.

Utica, N. Y., June 4.-James S. Shermat started to-night for New-York, to be gone all time except on Tuesday, when he will be in Washington. Mr. Sherman appears to be in excellent spirits and to regard the Speakership contest with complacency. He said to a reporter: "I am still a candidate, and shall con-tinue to be unless a majority of the New-York delegation at its meeting on Tuesday should declare for some one else."

NEBRASKA MEN FOR HENDERSON. that the votes of Nebraska's two Republican Congressmen will be cast for David B. Henderson for Speaker. Nebraska will thus second the candidacy of the favorite son of its neighboring State of Iowa of the favorite son of its neighboring State of Iowa and cement still further the amity and good feeling between the sister States. Congressman D. H. Mercer was expected to return yesterday from Washington, but was delayed. It is given out, however, on the best authority that he wants to be counted among General Henderson's supporters. Congressman E. J. Burkett has expressed himself as favorable to General Henderson's candidacy and his first official act in Congress will be to cast his vote for the Iowan for Speaker.

The need of the hearts of the people.

The patriotism needs devotion and sacrifice. It is a little hard to be natriotic without the blue and the brass. A soldler on the field goes forth and its wounded, and comes home proud of the wound. In the work that we are now engaged in a man may be struck and know not whence comes the blow. This requires heroism of the highest order. We have got to do more for our city in the future than we have done in the past. Your hearts should be on fire, and so filled that intuitively you should know your part. The ranks of the common people in everyday life are filled with thousands of latent heroes; men, women and children who have in their hearts the highest desires for the betterment of our land. Heroism is more than courage, for it goes further, in that it is joined to self-abnegation, to the principle of sacrifice. The highest type was the Man who came to this world to save mer.

There are little copies all through this city and all over this land of this great example, and in that lie my hope and faith for this land. Wickedness and baseness will surely be overthrown when the knowledge and principles that come from above are fully realized. The hero is one who gives himself for others without thinking. He who hopes for the victor's rewards has got to do more than was ever done in this city before.

I have refused again and again to speak about this subject in public. I have a holy horror of posing, but I have allowed my feelings to lead me on here, because I am talking to men who, I believe are imbued with a high sense of their moral responsibility, and because I am working for more than any committee, for more than any temporary result. What I want to arouse is such a love for country and God among the people as will protect this city, which is being despotled by robbers and traitors. A man who violates the rights of the people, especially after he has taken an oath to respect them, is ever so much more a traitor than one who fires at the flag. Do not let party affiliations

meeting was over many crowded around him to ment. To a Tribune reporter Mr. Moss said that week with any who might defy its authority than it has been in the past. He declined, however, to tell just what course the committee proposed to take in this matter, or to indicate what he would do concerning Captain Price's personal charge against himself.
